

# Omni

- **What is it?**

- IQ/MAX Omni is a licensed Unigy Soft Client product that provides communication services through a computer's audio interface. IQ/MAX Omni provides access to dial tone lines, intercom, speaker channels, private wires and hoots. It can be used to manage contacts, view communications history, program buttons, and manage presence information from the desktop.

- **Main Features**

- 600 Buttons
- 24 Buttons per page
- Hands Free Monitoring
- 1 x Customer Provided USB Handset or Headset (Native IP Audio over PC/Workstation/Computer)
- Optional Customer Provided USB Speaker
- Integrated Intercom
- IQ/MAX / Touch Speaker with 4-16 Channels including separate Volume + Micro controls

**IQ/Max Omni**

- **Note**

- Clients with Unigy systems today can leverage their existing Unigy estate, however there may be a need to expand Media Manager resources and CCM in some cases to accommodate large numbers of IQ/MAX Omnis.
